Computer Club Sub Groups

The Computer Club has formed a number of Sub-groups covering specific subjects of interest that tend to be specific to just those members who use them.

By doing this we've enabled regular Computer Club meetings to focus on wider ranging matters, without boring members less-interested in the sub-group key topics.

At the sub groups we can focus fully on their relevant subject more deeply and fully as members might wish.

These sub-groups are available to all members signed-up to the Computer Club.

If you're interested in joining a sub-group, please email computerclub@fhsc.org.uk

Here's the current list of Sub Groups and their administrators.

Publishing our Family History

Christine Wootton   Monthly - last Monday - Afternoon 2:30
